EJ CHRISTIAN MEDILO

SOFTWARE DEVELOPER | FULL-STACK DEVELOPMENT | EXPLORING AI ENGINEERING

Taguig City, Philippines | +63 960 6862 799 | ejchristianmedilo12@gmail.com | github.com/Eyzen08

PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in Frontend and Backend Development, REST API Integration, Database Management, and Application Security. Capable of building efficient, reliable, and user-focused software solutions. Continuously expanding technical expertise in Software Engineering while exploring AI Engineering to develop innovative solutions.

PROJECTS

STI Vio-Log | Student Discipline & Community Service Management **2026**

Full-Stack Developer | Capstone Project - Discipline Office, STI College Global City | GitHub Repository

Tech Stack: React, Vite, Node.js, Express.js, PostgreSQL (Supabase), Socket.IO, Vercel, Render

- **Engineered** a full-stack React and Express platform centralizing student violations, community-service assignments, and clearance workflows, enabling efficient record management for the Discipline Office.
- **Automated** QR-based attendance, digital DTRs, and service-hour tracking, streamlining student verification and progress monitoring.
- **Implemented** role-based access controls, secure cookie sessions, and CSRF protection; integrated Socket.IO updates, PDF certificates, and Excel exports to support secure operations and administrative reporting.

KWIZTORYA | Philippine History Learning Application **2025**

Lead Programmer | Application Development Research Project - STI College Global City | GitHub Repository

Tech Stack: Java, Android SDK, XML, Firebase Realtime Database, SQLite, SharedPreferences, Gradle

- **Led** application development within a three-member team, delivering an Android learning platform featuring interactive quizzes, five historical eras, Story Mode, and achievement tracking to enhance history learning.
- **Implemented** Firebase Realtime Database for user registration and login, alongside SQLite and SharedPreferences for score tracking and chapter progression, enabling users to save progress and resume learning.

EXPERIENCE

Moreh Academy | NSTP OJT Trainee - Admission Office **2024**

Upper Bicutan, Taguig City

- **Completed** 54 hours of NSTP on-the-job training in the Admission Office, assisting school personnel with assigned administrative tasks and day-to-day operations.
- **Provided** basic technical assistance and coordinated equipment preparation with staff, supporting readiness for school and office activities.

BCiS Power Technologies Corp. | Work Immersion Trainee **2023**

South Cembo, Makati City

- **Completed** 80 hours of Work Immersion, performing assigned administrative and routine IT-support tasks to maintain organized office operations.
- **Collaborated** with supervisors on technical requests and daily responsibilities, supporting timely completion of assigned work and team coordination.

EDUCATION

STI College Global City — BS in Information Technology (BSIT) 2023–Present

Moreh Academy — ICT Strand, Senior High School 2021–2023

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Code to Success: Mastering Software Development Cycle for IS Professionals — JPCS Clarendon College | 2026
- Introduction to Modern AI — Cisco Networking Academy | 2026
- Cyber Threat Management — Cisco Networking Academy | 2026
- Cybersecurity Quality Assurance: Detect, Test, Secure — Ethel Programming Computer Programming Services | 2026
- LEGO Educational Robotics and Computer Technical Training — University of the East Manila | 2018

TECHNICAL SKILLS

Programming: JavaScript, Java, SQL; familiarity with Python, PHP, C#

Frontend: React, Vite, HTML5, CSS3, responsive user interfaces

Backend: Node.js, Express.js, REST APIs, Socket.IO, role-based access control, cookie-based sessions, CSRF protection

Databases & Platforms: PostgreSQL, Supabase, Firebase Realtime Database, SQLite, Android SDK, Vercel, Render

Development Tools: Git, GitHub, VS Code, Android Studio, Gradle, PDFKit, ExcelJS
