EJ CHRISTIAN MEDILO

ASPIRING SOFTWARE DEVELOPER | FULL-STACK WEB DEVELOPMENT | EXPLORING AI ENGINEERING

Taguig City, Philippines | +63 960 6862 799 | ejchristianmedilo12@gmail.com
Portfolio: ejmedilo.vercel.app | LinkedIn: linkedin.com/in/ej-christian-medilo-a09049426/ | GitHub: github.com/Eyzen08

PROFESSIONAL SUMMARY

Fourth-year BSIT student and aspiring software developer with hands-on experience building full-stack web and Android applications. Developed STI Vio-Log, a student discipline and community service management system, and led development of Kwiztorya, a Philippine history learning application. Skilled in React, Node.js, Express.js, PostgreSQL, Java, API integration, and application security, with a growing interest in AI engineering.

TECHNICAL PROJECTS

STI Vio-Log | Student Discipline & Community Service Management | 2026

Full-Stack Developer | Capstone Project — STI College Global City | github.com/Eyzen08/STI-Vio-Log

Technologies: React, Vite, Node.js, Express.js, PostgreSQL (Supabase), Socket.IO, Vercel, Render

- Developed a full-stack web application that centralizes student violation records, community service assignments, and clearance workflows to support the Discipline Office's monitoring and record management.
- Integrated QR-based attendance, digital time records (DTR), service-hour tracking, role-based access control, real-time updates, and report generation to support attendance monitoring, secure access, and administrative reporting.

KWIZTORYA | Philippine History Learning Application | 2025

Lead Programmer | Application Development Research Project — STI College Global City | github.com/Eyzen08/Kwiztorya

Technologies: Java, Android SDK, XML, Firebase Realtime Database, SQLite, SharedPreferences, Gradle

- Led a three-member development team in building an Android learning application featuring interactive quizzes, five historical eras, Story Mode, and achievement tracking to provide engaging ways to learn Philippine history.
- Integrated Firebase authentication and local data storage to manage quiz scores and chapter progression, enabling users to save and resume their learning progress.

EXPERIENCE

Moreh Academy | 54-Hour NSTP OJT Trainee — Media and Information Technology (MIT) Department | 2024

Upper Bicutan, Taguig City

- Maintained organized digital files and departmental documents to improve accessibility and support routine office workflows.
- Processed and refined graduate portraits for school-related materials, ensuring consistent image quality and professional presentation.

BCiS Power Technologies Corp. | 80-Hour Work Immersion Trainee | 2023

South Cembo, Makati City

- Coordinated administrative tasks and maintained organized records to support documentation and office workflow requirements.
- Responded to assigned technical and operational requests from supervisors, helping maintain smooth daily operations.

EDUCATION

STI College Global City | Bachelor of Science in Information Technology (BSIT) | 2023–Present
Moreh Academy | Information and Communications Technology (ICT) Strand, Senior High School | 2021–2023

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Microsoft Artificial Intelligence Course: Azure AI Fundamentals — October 2026
- Introduction to Modern AI — DICT-ITU DTC Initiative through Cisco Networking Academy | October 2026
- Fundamentals of Artificial Intelligence — October 2026
- Cyber Threat Management — Cisco Networking Academy | August 2026
- Cybersecurity Quality Assurance: Detect, Test, Secure — Ethel Programming Computer Programming Services | August 2026
- Code to Success: Mastering Software Development Cycle for IS Professionals — JPCS Clarendon College | August 2026
- LEGO Educational Robotics and Computer Technical Training — University of the East–Manila Campus | June 2018

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Java, SQL, familiar With: Python, PHP, C#
Frontend: React, Vite, HTML5, CSS3, Tailwind CSS, responsive user interfaces
Backend: Node.js, Express.js, REST APIs, Socket.IO
Databases & Platforms: PostgreSQL, Supabase, Firebase Realtime Database, SQLite, Android SDK, Vercel, Render
Security: Role-based access control, cookie-based sessions, CSRF protection
Development Tools: Git, GitHub, VS Code, Android Studio, Gradle, PDFKit, ExcelJS
AI-Assisted Development Tools: ChatGPT, OpenAI Codex, Claude, Google Gemini, GitHub Copilot
